

Welcome to Lehigh! Free Ice Cream and Snacks! Special Event for All Incoming First-Year Students

Tuesday, August 25 • 4:00 – 5:00 pm • Packard Lab 1st Floor

Meet professors and fellow students in the CSE Department. All students with an interest in Computer Science, Computer Engineering, and Computer Science & Business are welcome! Stop by and find out more about our courses. We have majors for students in RCEAS, CAS, and CBE.

Computers now pervade all aspects of modern life. Advances in Computer Science & Engineering have enormous impacts on fundamental problems in engineering, the sciences, business, the arts, medicine, public policy, communication, robotics, financial services, entertainment, national defense, education, search and retrieval, digital libraries, manufacturing, social networks, biotechnology, and cybersecurity.

Notice Concerning Advanced Placement in CSE

1. If you have received AP credit for CSE 15 (by scoring 4 or 5 on the AP exam), then you should take an “anticipatory” exam for obtaining additional credit for CSE 17.
2. If you have taken a computer science course in high school (in Java), you should take an “anticipatory” exam for waiving CSE 15 as a prerequisite for additional courses in computer science. Both exams are scheduled during orientation. To register for either exam, contact the Office of First Year Experience by August 14 by emailing fye@lehigh.edu.
